# BlackBerry services

## Best for single users / small businesses

BlackBerry Internet Solutions (BIS) offers companies with just a few staff, accessing Google, Hotmail and Manxnet accounts.

## Best for those wanting additional security and synchronisation with the office

BlackBerry Enterprise Server Express (BESE) brings you this without the additional licensing and software costs.

## Best for those needing to access their office server

BlackBerry Enterprise Solution (BES) keeps you connected with your office server, company email, corporate data, intranet or the web.

## Did you know?

The next evolution of BES will be known as BB Mobile Fusion (BMF) and it will allow central management of iOS & Android devices.

BMF will be available later this year, talk to your Account Manager today.

## BESE and BES services also include

- Additional security benefits (IT policies).
- Access to your corporate data and business software applications.
- Access to your Intranet and the Internet.

## Each BlackBerry service allows you to

- Connect to the most popular email accounts such as Manxnet, Yahoo!, Hotmail\*, Google, etc, or to any email account which allows email forwarding or access via the Internet (POP3/IMAP4).
- Synchronise your email, calendars, tasks and contacts list and view these remotely.
- Read attachments, inc. PowerPoint, PNG, PDF, DOC and JPEG files.
- Share Calendars.

\*dependent on Hotmail subscription.

## freedom to work in a different way

Offering download speeds of up to 14.4Mbps and upload speeds of up to 2Mbps, Mobile Broadband has never been bigger, better or faster!

Fantastic speeds and great coverage, both on and off Island mean that Manx Telecom Mobile Broadband customers can take full advantage of the amazing capability of the latest 3G/HSPA mobile devices, such as the iPhone.

Our selection of Smartphones and Mobile Broadband tariffs give you a superfast broadband connection without the need for a fixed-line, as long as you are on the Manx Telecom network and in an area with good mobile coverage.

## mobile broadband allows you to

- Surf the web, access emails, download/upload files, watch TV/video clips, or make video calls.
- Work anywhere; at home, on the move, at the airport or whenever you're out and about. No need for a fixed Broadband line or to pay for Wi-Fi hot spots.

# mobile tariffs

## flex 12 • 18 • 24 month tariff

if you want a new **discounted** or **free handset**, choose a 12, 18 or 24 month tariff, the longer your tariff, the cheaper the handset. Flex tariffs are also available on a SIM only 1 month tariff.

## flextra sim only tariff

if you're happy with your current handset this 12 month SIM only tariff gives you extra minutes and texts for no extra money! If you decide on a Flex tariff with handset, you can upgrade anytime you want.

## bolt-ons text/minute/data

Extra texts, minutes or data can be applied to any Pay Monthly tariff\* to suit your needs. Chat or text to other Manx Telecom mobiles as much as you want when on our network, and surf the net, download files, videos and games whilst on the move.

\* not available with Flex 300 or Flextra 350

# pay monthly benefits

up to 120MB\*\*  
mobile  
broadband  
every month

For your emails,  
downloads and  
internet on your mobile.

calls to UK  
mobiles  
included

Inclusive minutes include  
calls to IOM, UK\* and  
Channel Islands fixed/  
mobile and 0870  
numbers.

inclusive  
mins/texts

Inclusive mins/texts  
to use as you wish  
anywhere in the  
world!

\*\*With Flex 1200 or Flextra 1400 plans. \*Numbers allocated to UK mobile network operators that provide mobile services with substantial national coverage (this currently includes the five major operators, O2, Orange, T-Mobile, Vodafone and 3, and providers such as Virgin Mobile, Tesco Mobile, and BT Fusion, but may exclude call forwarding services, onward calling services or numbers that pay a revenue share.

unlimited on-net text/calls/data from **£5.83** p/m

## groups call free

Place any fixed/mobile numbers on the same bill and calls between these numbers will be free when on our network.

## free to receive calls

When you're in the UK, Republic of Ireland and Channel Islands.

## free on Island voicemail and call itemisation

Via "My Account"

All tariffs provide you with a single bundle of inclusive minutes/texts to use as you wish. Inclusive minutes can be used to call Isle of Man, UK, and Channel Islands fixed/mobile and 0870 numbers. Inclusive texts includes SMS (text only) and MMS (picture messaging) and can be used to any other mobile. Inclusive data is in megabytes (MB). All unused inclusive allowances roll over to next month. Inclusive minutes, messages and data do not apply to calls made whilst roaming.

Unlimited minutes and text bolt-ons refers to use while on the Manx Telecom mobile network to other Manx Telecom mobile customers. Minimum for any bolt-on is one month. Additional bolt-ons do not roll over.

Term and conditions apply.

Prices are exclusive of VAT.

# fixed line tariffs

your choice

## fixed line tariffs to suit any business

When it comes to your most fundamental decisions – the tariff for the landlines in your business – we offer a real choice. We know that every business is different, that each company will use their telephones in different ways and at different times.

Our Choice tariffs offer fantastic value for money and a range of benefits...

### Global Choice

Best for businesses who make a lot of calls to local, UK, international and mobile numbers.

Free calls to local fixed line numbers, all day, every day.

Calls to UK, Channel Islands and Republic of Ireland fixed lines are capped at just 8.5p for up to an hour, all day every day.

Calls to Manx Telecom mobiles are just 5.1p per minute, all day every day.

Our lowest call charges to international destinations (from just 3.3p per minute).

Free Voicemail, Free Caller Display and Free Star Services.

### Island Choice

Best for businesses who mainly make calls to Isle of Man or UK numbers.

Free calls to local fixed line numbers every evening and all weekend

Calls to UK, Channel Islands and Republic of Ireland fixed lines capped at just 8.5p for up to an hour, every evening and all weekend

Calls to Manx Telecom mobiles are just 4.3p per minute, every evening and all weekend

Daytime calls to local fixed lines capped at just 8.5p for up to an hour

Free Voicemail, Free Caller Display and Free Star Services

## we can help

Call us on 624 624 and one of our experts will analyse your current usage and optimise your line(s) to the best tariff for you.

## fixed line tariffs

Island Choice	6.00p	2.55p*	2.55p*	17.02p	12.76p	12.76p

## UK/CI/ROI mobile

All prices exclude VAT. Free calls up to an hour duration then 2.55p per minute with no minimum call charge, customers should hang up and start again to remain free of charge.  
 \*Calls capped at 8.5p for up to an hour. Calls charged at per minute rate up to 8.5p and after 60 minutes. UK fixed lines include numbers beginning 01, 02, 03 & 0870. Excludes calls starting 05, 07, 08 (except 0870) & 09. Calls to ROI will be charged depending on whether the number called is identified as terminating on a fixed or mobile network by Manx Telecom.

## FREE calls and one bill with groups call free

Simply tell us which mobile and fixed line numbers you would like to place on one monthly bill and calls between these numbers will then be FREE, **all day, every day** when on the Manx Telecom network.

### With Groups Call Free you receive...

- FREE calls between the mobile and fixed line numbers that appear on the same bill
- FREE calls between these numbers, all day, every day
- There's no upper limit to the number of mobile or fixed numbers you can have on the same bill
- Fantastic savings – especially for those with a mobile workforce, or offices across several locations
- Simplified admin – just one bill covers everything and with E-Bill at no extra charge, phone bills will be cheaper and simpler

## E-Bill - more ways we can help

### save time - save money - save the environment with E-Bill and E-Bill analysis

We'd all love a paper free office and with E-Bill and E-Bill Analysis we can certainly assure you of less paperwork, cost savings, a tool to help you manage and interpret the phone usage of your business, plus you'll be helping the environment too. E-Bill and E-Bill Analysis provide you with meaningful information to understand and analyse your telephone usage, and hopefully reduce your costs.

#### E-Bill & 'My Account'

E-Bill is FREE, simple paper-free online billing.

Choose E-Bill by adding your Mobile, Fixed or Converged Account details to the 'My Account' area of our website at [www.manxtelecom.com](http://www.manxtelecom.com) (you must first register for 'My Account').

Once you have received your username by post, login and choose 'Management & E-Billing'. Next click E-Billing option AND FOLLOW THE INSTRUCTIONS.

We will send your secure E-Bill by email each month which you can store electronically and print only if and when required.

#### E-Bill offers...

- Full call itemisation
- Detailed statistics of phone usage

#### E-Bill analysis

E-Bill Analysis is FREE and is a more advanced online billing solution which offers...

- automatic analysis of your bills presented via a simple-to-use graphical interface
- over 30 analytical reports included as standard
- in-built wizard to create your own reports
- all reports can be printed, downloaded, or exported to other programmes

If you make over 2,500 calls a month, or need to allocate charges to different cost centres the extra power, capacity, and functionality of E-Bill Analysis is a must have.

## NEW Intelligent Voice

Intelligent Voice is our purpose-built carrier grade hosted telephony solution for business. Based on Broadsoft's market leading BroadWorks platform it provides an Internet-delivered feature rich virtual PBX.

**save money over  
a traditional PBX**

### **voice over IP**

Intelligent Voice uses Voice over IP technology to deliver enhanced telephony features in a monthly pay subscription model which can substantially reduce costs.

For instance, a traditional telephone system can cost thousands of pounds whereas the capital expenditure with Intelligent Voice is minimal and gives significant savings by comparison.

### **feature rich**

Intelligent Voice is significantly more agile than a site-based phone system, with the flexibility to suit your business needs. Features such as remote working, click-to-dial from your Outlook contacts, voicemail-to-email can be easily and cost effectively deployed giving increased operational efficiency, better resilience and improved business continuity.

Ideal for any size of business from as few as two users to multi-national corporations. You dictate the featureset for each phone – thus you decide how sophisticated your virtual PBX needs to be.

For a demonstration of our Intelligent Voice solution please contact us by email on [sales@manxtelecom.com](mailto:sales@manxtelecom.com) or by calling 624 624.

## keeping you connected to customers, colleagues & suppliers

Choosing the best Broadband package doesn't need to be confusing, Manx Telecom offers the best choice, service and value for money.

For the fastest service possible choose Ultima Broadband from Manx Telecom. This fully Unlimited Broadband service, available on line lengths of up to 2KM, offers the fastest speeds at up to 40Mbps downstream and up to 2Mbps upstream. Whether you require a fixed or dynamic IP address, 'Wires-Only' or a fully 'Managed' service which includes a high performance router with full support and priority fault response, Ultima has the package for you.

We can also offer a full range of ADSL2+ services offering speeds of up to 16Mbps downstream and up to 832Kbps upstream and SDSL Broadband provides the same bandwidth for both upstream and downstream.

### ultima really, really, fast broadband

up to 40 Mbps downstream  
and up to 2 Mbps upstream

## broadband business lite

Best for companies who only have a relatively light usage of the Internet, but who need a fixed point of presence on the Internet, typically those who host their own website or run an email server, or Virtual Private Network (VPN).

## broadband business

Best for companies who have relatively heavy usage who need more than one fixed point of presence on the Internet, typically those who host their own website, run an email server, a VPN, or an FTP server.

## standard broadband

up to 16 Mbps downstream  
and up to 832 Kbps upstream

\*One IP address is assigned as standard. Additional addresses are only available for Broadband Business customers (Not Business Lite) on completion of a RIPE address declaration. This form will be verified by Manx Telecom, and may be rejected if the number of IP addresses requested appears excessive. Most functions can be achieved with a single IP address using Network Address Translation (NAT) and Port Forwarding, so customers are asked to consider this before completing the RIPE declaration form. Prices exclude VAT and are valid at time of publication.

## SDSL broadband

Best for companies that have substantial outgoing Internet traffic and ideal for businesses who host their own web or email servers in-house, and use services such as VPN's. SDSL (Symmetric Digital Subscriber Line) provides the same bandwidth for both upstream and downstream data.

Features include...

- Zero contention ratio
- Available in 512Kb, 1Mb and 2Mb, subject to distance limitations
- 24/7 helpdesk with priority fault resolution

Visit [manxtelecom.com](http://manxtelecom.com) for further details and tariffs.

## web and email hosting

Few businesses can do without some sort of online presence, and for many businesses the web is the business. The Internet offers fantastic opportunities to grow and develop, but small businesses can find it difficult to get hold of the expertise needed to move their business online and develop it when it's there. That's where Manx Telecom can help.

Our choice of E-Biz packages are tailored to meet the needs of every type or size of business. Whether you want your own domain name, a web presence for emails or somewhere to host your website, our E-Biz tariffs give you choice value and service.

All E-Biz packages are hosted at our world class hosting centre, offering a high speed, secure, and resilient hosting service, ensuring your business is very much our business!

### E-Biz Lite Mail

Best for small businesses which may already be using @manx.net e-mail addresses but now want up to 4 emails on their own domain name. Anti-Virus and Spam protection included.

### E-Biz Lite Web

Best for a business looking for a low cost web hosting package with their own unique domain name, but not email. 100MB of web space.

### E-Biz Standard

Best for small office or home office customers who want to take the initial steps of having an Internet presence. Provides - 250MB of web space - 5 e-mail addresses - Anti-Virus and Spam filtering.

### E-Biz Professional

Best for any business that requires a professional web presence. Provides 1GB of web space, a choice of domain names (including the option of a '.im' address), 30 email addresses, Anti-Virus and Spam filtering.

### E-Biz Mail

Best for a company which only needs e-mail services without web hosting. Anti-Virus and Spam protection included.

**NEW**

## website design and content management services

In addition to our E-Biz packages, we are now able to offer website design and content management services to provide you with a complete solution for your online presence. For new sites built from scratch or if your existing site needs a refresh, our in-house team can advise on every aspect. Website design and content management services are charged at an hourly rate of £65 or part thereof (minimum charge £12).

database technologies	x	x	optional	✓	x
cost per month	£4.25	£4.25	£8.50	£25.00	£15.00

## mail store and forward

Email is vital for many businesses. Can you afford to lose email if your Internet connection or mail server has a problem?

For businesses that have their own mail server, or host their email with another provider, Manx Telecom is now able to offer E-Biz Mail Store & Forward, which will automatically queue your emails if your mail server is unreachable for any reason and forward them on to you when your mail server is available again.

For only £10.00 per month + VAT your business can relax in the knowledge that you will have a fully automated email storage solution in place at the most important time.

## domain names

E-Biz also offers a range of Domain Name registration solutions. Whether you want to reserve a Domain Name till your website is ready or to protect your brand, or you just need an additional Domain Name for your existing site we have a solution for you.

# Reduce your IT hardware and maintenance costs.... with Intelligent Cloud

Intelligent Cloud is an Infrastructure as a Service (IaaS) product that allows businesses to virtually build, manage and instantly deploy servers and data in our secure offsite Data Centre. All without the financial outlay on hardware, maintenance or replacement, yet retaining the ability to access and administer all services as necessary.

It transforms the way businesses think about IT and its commodity focused approach ensures maximum resource efficiency by ensuring outlay is aligned fully with IT usage.

## Integration with our other products and services

Our product bridges the gap within MT's corporate web hosting portfolio between our E-Biz services - which provides the small business with a shared web and email presence - and the hosting of dedicated servers.

Aligning perfectly with "Intelligent Voice", MT's Business VoIP product as a suite of virtual hosted services, they could mark the end of capital investment on ICT services for many businesses. We can also provide a full end-to-end managed cloud service, acting as your very own IT team managing, monitoring and maintaining your systems 24 x 7 x 365 to ensure your business is always online.

## Why Intelligent Cloud?

### Key Features

- Built on Industry leading VMware virtualisation technology
- Includes 512Kb of FREE bandwidth
- Ease of deployment and teardown; with your dedicated vCloud powered control panel
- No hardware purchase or refresh required
- Local support and monitoring you can trust, 24 x 7 x 365
- HP enterprise-class server hardware
- Cisco powered network
- Automatic failover to guarantee uptime

### Savings and Benefits

- Located in our highly secure Data Centres
- VMware trained and certified technical team
- Dynamic scalability at a moment's notice
- Optimise available accommodation within your business
- No need for additional IT support
- Save on training costs
- Save on provision of an uninterruptable power supply (UPS) & ongoing costs on electricity bills
- No expensive air conditioning to run & maintain

## Flexible Options to Suit Your Business

Intelligent Cloud offers businesses the option of leasing space on hosted servers within a virtualised environment, based upon a fixed-term contract or pay as you go model, managed or unmanaged. A simple to use portal is provided to remotely manage the virtual machines (VM), add or remove an entire VM and increase or reduce individual resources.

**Intelligent Cloud Pay As You Go** is a multi-tenant service that enables a customer to place virtual servers on MT Intelligent Cloud on a month-by-month basis. Customers are committed for only one month at a time with most fees charged on an hourly basis (when VMs are “powered-on”).

**Intelligent Cloud Reserved** is a multi-tenant service whereby a customer requests us to set aside a fixed amount of cloud capacity for their use. The minimum commitment for this level of service is one year. Additional resource ‘bursting’, connectivity, storage and security options are all available.

## Would your business benefit from Intelligent Cloud?

Intelligent cloud has many deployment options for businesses of all shapes and sizes – just some include:

- Web services & online content delivery
- Email & messaging services
- Application delivery (cloud / conventional)
- Virtual Desktops / VDI
- DR servers & off-site Data Storage
- Development & testing platforms
- Address compliance requirements
- Training courses / ad-hoc infrastructure needs
- Off-site (but on-Island) data storage
- Create a hybrid cloud with your existing infrastructure

## Hosting environment

Manx Telecom Data Centres are designed to support and protect mission-critical operations. Audited annually to ISO/IEC 27001 certification, our multi level physical security features and a rigidly-controlled operating environment ensure customer assets and are always fully protected.

## Business Continuity Centre

If a disaster such as fire, flood, power, terrorism, IT failure affects your office environment, will your business suffer as a consequence?

Manx Telecom's purpose-built Business Continuity Centre, ensures that your critical staff and computing systems can quickly be servicing your customers to maintain those important relationships.

Dedicated and/or shared seat options make it the perfect solution whatever the size of your business.

### Seamless

Discreetly located outside of the main business area yet still close enough to be reached conveniently. Transfer from your premises to the Centre can be seamless and almost instantaneous.

Our fully air conditioned facility with capacity for up to 62 physical seats. With these there will be computing, telephony, printing, fax, confidential waste disposal; everything you need to ensure your business can run smoothly and efficiently in the event of an invocation.

For a tour of our Business Continuity Centre please contact us by email on [sales@manxtelecom.com](mailto:sales@manxtelecom.com) or by calling 624 624.
