

## How to Change Mac OS-X to use the new Manx Telecom Click Dial-Up Number

- Click the **Apple** icon and select **System Preferences**

- Click the **Network** icon and then the **PPP** tab

- Change **Telephone Number** to **147008440906246**
- Click **Apply Now** and close the **System Preferences** window

Your computer will now use the correct Click dial-up number for your Internet access.

If you have any difficulties with this or would like to discuss our range of Internet access products please contact us on 624624.
