

Overview:

Manx Telecom has a wealth of experience in providing an innovative, cost effective and resilient, secure network / hosting consultancy service, and support.

Explained

We can design, install, and maintain your Local Area Network (LAN), Wireless Local Area Network (WLAN), Wide Area Network (WAN) – or your hosting solutions – giving your business the tools to keep up with advancing technology.

With our extensive experience of infrastructure and hosting, plus a comprehensive portfolio of products, we can provide network and remote access security solutions that give you the peace of mind that your assets are protected.

Our professional Account Managers and highly qualified industry-accredited engineers will work with you to give you the highest level of network reliability and performance; backed up by our comprehensive 24x7x365 service centre.

You can also combine our consultancy skills with other projects, or work with our excellent Bundled Hours / Days service, where you buy a set amount of “engineering time” from Manx Telecom, and use those skills when and where you need them the most.

Target Market

All businesses.

Benefits

- Delivers reliable, cost effective support solutions
- Access to world-class engineering expertise
- Reliable, effective response to faults
- Reassurance that your network is in the best possible hands.

Why Manx Telecom

Manx Telecom is the Isle of Man’s largest telecommunications and Internet provider, offering the full range of fixed line, mobile and data services to consumers and businesses.

Manx Telecom has developed a portfolio of services which provide businesses with the tools necessary to increase productivity, reduce costs, and win and retain customers.
